Main Dashboard Module

Dashboard

1) List Dashboard

- Design – Completed
- Fetch data from backend – Pending

Accounts Module

User

1) List users

- Design – Completed
- Fetch data from backend – Completed
- Filtering based on user - completed

2) Add User

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend - Completed

3) Edit User

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Edit Log

- Desing – pending
- Connection from backend - Completed

Manage Subscription (sub module of Accounts)

- Design – Completed
- Fetch data from backend – pending
- Filtering based on user - pending

Profile (sub module of Accounts)

- Design – Completed
- Fetch data from backend – Completed
- Edit Profile - pending

User Type & Permission (sub module of Accounts)

- Design – pending
- Fetch data from backend – Pending

Site Settings (sub module of Accounts)

- Design – pending
- Fetch data from backend – Pending

Vehicle Module

1) List vehicle

- Design – Completed
- Fetch data from backend - Completed

2) Add Vehicle

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend - Completed

3) Edit Vehicle

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending
- Fetch from backend – pending

5) Edit Log

- Desing – pending
- Connection from backend - Completed

Sub modules of vehicle

1) Trips & Schedule

(1) List Trips& Schedules

- Design – Completed
- Fetch from backend – Completed
- Filtering based on user - Pending

(2) Add Trips& Schedules

- Design – Completed
- Form validation – Pending
- Fetch from backend – Pending
- Filtering based on user - Pending

(3) Edit Trips& Schedules

- Design – Completed
- Edited data showing status - Pending
- Fetch from backend – Completed

(4) Edit Log

- Design – Pending
- Fetch from backend – Pending

2) Service

(1) List Service

- Design – Completed
- Fetch from backend – Completed
- Filtering based on user - Pending

(2) Add Service

- Design – Completed
- Form validation – Pending
- Fetch from backend – Pending
- Filtering based on user - Pending

(3) Edit Service

- Design – Completed
- Edited data showing status - Pending
- Fetch from backend – Completed

(4) Edit Log

- Design – Pending
- Fetch from backend – Pending

3) Documents(related to vehicle)

(1) List Documents

- Design – Completed
- Fetch from backend – Completed
- Filtering based on user - Pending

(2) Add Documents

- Design – Completed
- Form validation – Pending
- Fetch from backend – Pending
- Filtering based on user - Pending

(3) Edit Documents

- Design – Completed
- Edited data showing status – Pending
- Fetch from backend – Completed

(4) Edit Log

- Design – Pending
- Fetch from backend – Pending

4) Dashboard (related to vehicle)

- Design – pending
- Fetch from backend – Pending

Driver Module

Driver

1) List Driver

- Design – Completed
- Fetch data from backend – Completed
- Filtering - completed

2) Add Driver

- Design - Completed
- Form validation – Pending
- Connection from frontend and backend - Completed

3) Edit Vehicle

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending
- Fetch from backend – pending

5) Edit Log

- Desing – pending
- Connection from backend - Completed

Sub modules of driver

1) Documents(related to driver)

1. List Documents

- Design – Completed
- Fetch from backend – Completed
- Filtering based on user - Pending

2. Add Documents

- Design – Completed
- Form validation – Pending
- Fetch from backend – Pending
- Filtering based on user - Pending

3. Edit Documents

- Design – Completed
- Edited data showing status - Pending
- Fetch from backend – Completed

4. Edit Log

- Design – Pending
- Fetch from backend – Pending

2) Dashboard (related to driver)

- Design – Pending
- Fetch from backend – Pending

Expesnse Module

1) Expense Master

1) List Expense Master

- Design – Completed
- Fetch data from backend - Completed

2) Add Expense Master

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend - Completed

3) Edit Expense Master

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending
- Fetch from backend – pending

5) Edit Log

- Desing – pending
- Connection from backend – Completed

2) Expense Request

1) List Expense Request

- Design – Completed
- Fetch data from backend - Completed

2) Add Expense Request

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend - Completed

3) Edit Expense Request

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending
- Fetch from backend – pending

5) Edit Log

- Design – pending
- Connection from backend – Completed

Route Module

1) Route

1) List Route

- Design – Completed
- Fetch data from backend - Completed

2) Add Route

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend - Completed

3) Edit Route

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending
- Fetch from backend – pending

5) Edit Log

- Desing – pending
- Connection from backend – Completed

Groups Module

Groups

1) List groups

- Design – Completed
- Fetch data from backend – Completed
- Filtering - Pending

2) Add groups

- Design - Completed

- Form validation on frontend – Pending
- Connection from frontend and backend – Pending
- Filtering - pending

3) Edit Groups -

- Design - Completed
- Connection from frontend and backend – Pending
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending
- Fetch from backend – pending

5) Edit Log

- Desing – pending
- Connection from backend – Completed

Vendor Module

Vendor

1) List Vendor

- Design – Completed
- Fetch data from backend – Completed
- Filtering based on user - Pending

2) Add Vendor

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend – Completed
- Filtering based on user - Pending

3) Edit Vendor

- Design - Completed
- Connection from frontend and backend – Completed
- Edited data showing status - Pending

4) Bulk upload

- Design – Pending

- Fetch from backend – pending

5) Edit Log

- Desing – pending
- Connection from backend – Completed

Troubleshoot Module

Troubleshoot

1) List troubleshoot

- Design – Completed
- Fetch data from backend – Completed
- Filtering based on user - Pending

2) Add troubleshoot

- Design - pending
- Form validation on frontend – Pending
- Connection from frontend and backend – pending
- Filtering based on user – Pending

Helpdesk Module

Helpdesk

1) List troubleshoot

- Design – Completed
- Fetch data from backend – Completed
- Filtering based on user - Pending

2) Add troubleshoot

- Design - Completed
- Form validation on frontend – Pending
- Connection from frontend and backend – Completed
- Filtering based on user - Pending

Notification Module – pending
